To Whom It May Concern,

I am writing to express my interest in an internship opportunity within the Engineering and Maintenance Department of your esteemed organization. I hold a Diploma in Aeronautical Engineering (Airframes and Engines option) and am eager to further develop my practical skills and technical knowledge within the aviation industry.

I am currently undertaking a three-month internship at Kenya Airways, where I have gained hands-on experience in the maintenance of various aircraft types, including the Boeing 737, Boeing 787 Dreamliner, Embraer 170, and Embraer 190. This role has enhanced my understanding of scheduled maintenance procedures, troubleshooting, and safety protocols, while also familiarizing me with maintenance documentation and engineering teamwork in a real-world setting.

Previously, I interned at Kasas Limited, where I was actively involved in basic aviation maintenance tasks and workshop operations. These experiences have helped me build a strong foundation in aircraft systems, troubleshooting, and collaborative problem-solving. Enclosed are my resume, academic transcripts, and a letter of recommendation for your review. I would welcome the opportunity to contribute to your team while gaining further exposure in a professional engineering environment.

Thank you for considering my application. I look forward to the opportunity to grow and contribute as an intern within your organization.

Kind regards,

ENTRIX MAKAMBI
